

## Vision Statement:

PokePug is a Pokedex application that teaches people all about their favorite Pokemon species. Users can give likes to their favorite Pokemon and see how many other people like that species. Once they've learned all about the Pokemon featured, they can test their knowledge with a special PokePug quiz! Try to get all the questions right and prove yourself a Pokemon expert!

## Architecture:

## User's Guide:

### Landing Page:

This is the first page of the PokePug you will encounter. It gives a short introduction about what the PokePug is and encourages you to click on a Pokemon species to start learning about the different Pokemon featured. The navigation bar appears above the description and allows you to jump between different PokePug entries.

### PokePug - A Pug Powered Pokedex

This special Pokedex contains information about some of the coolest Pokemon out there! Click on a Pokemon species above to get started

### Pokedex Entries:

The first four pages in the navigation bar correspond to our four featured Pokemon: Jolteon, Cyndaquil, Sylveon, and Vulpix. Each PokePug entry tells you what kind of Pokemon you're looking at and gives you a cool fact about said Pokemon. It also has a "Like" button at the

bottom that lets you express your love of your favorite Pokemon! The Like button also shows how many other people have liked this Pokemon.

Jolteon Cyndaquil Sylveon Vulpix Zoom Quiz

### Jolteon

Jolteon is an electric type Pokemon. Its lungs contain an organ that generates electricity, you can hear it crackling whenever it exhales!

Like (35)

### Zoom Meeting:

This page features all four of our Pokemon side by side, just like a Zoom meeting! This is a great place to get a good look at every Pokemon's relative size, and it could help remind you of their differences before you go take the quiz.
